## 募集要項

We are currently a global company with more than 500 foreign engineers (from 50 countries).

You will be working on projects by clients.

In general contractors, design offices, construction consultants, you will be responsible for CAD/BIM/CIM operation related to architectural and civil engineering.

We'll assign a project that suits your experience.

### 【Project example】

- ・ Create 2D drawings such as a plan view, elevation view or sectional view
  - ・ Model creation by 3D modeling
  - ・ Drawing, tabulation and rendering from models
  - ・ Structural analysis using an analysis software
- 

## スキル・資格

### 【Qualifications】

- Hands on experience in AutoCad in architect, civil, or MEP field
- Bachelor's or higher degree in Architectural Engineering or Civil Engineering

\*Please be sure to attach a resume in Japanese or English when applying.
