募集要項

About the Hiring Company:

- Innovative Startup Specialized in Cutting-edge Visual & Imaging Technologies

About the Role:

- Playing manager who can lead the company's general affairs and IT work while getting hands-on as necessary.
- Company-wide security policy formulation and improvement
- Internal network and server operation/design/construction (VPN/UTM/VLAN/file server/LDAP server)
- Internal network operation (maintenance and management)
- Planning and operation of information asset management system

Attractiveness of this position:

- You will be directly involved in the formation of the organization and creation of rules at a startup preparing for an IPO
- The flat organizational structure allows you to work with discretion while communicating closely with management

スキル・資格

Must Haves:

- Experience as a leader in a management department, including the IT department (3 years or more)
- Experience planning or executing company-wide projects
- Knowledge of internal network and server design/construction (VPN/UTM/VLAN/file server/LDAP server, etc.)
- Ability to communicate and work with others to advance projects

Preferred Experiences:

- English proficiency
- Experience working in the management department of a listed company
- Experience working at a startup or a company with 50 to 100 employees
- Experience building/launching a CSIRT or SOC
- Experience in general affairs (office management, information asset management, etc.)
- Experience as a system architect or tech lead
