### 募集要項

#### Daily Duties

##### 1. Quality Assurance for Products:

- Ensure the efficacy, quality, and safety of medical devices manufactured in Japan and overseas.
- Handle quality-related tasks for new product introductions and product modifications, including change management.
- Conduct discontinuation procedures for items, manufacturers, or part numbers.

##### 2. Quality-Related Tasks:

- Coordinate test samples and oversee validation reviews.
- Update packaging and sterilization agreements, arrange sterilization tests, and review catalogs and guides.
- Maintain regulatory data in the QAD system.
- Collaborate with overseas stakeholders for quality-related activities.

##### 3. Non-Conformity and Complaint Handling:

- Address non-conformities and product complaints to prevent the spread of defects.
- Implement measures to improve product quality.

##### 4. Regulatory Compliance:

- Manage documentation required by the Pharmaceuticals and Medical Devices Act and ISO13485.
- Ensure seamless business operations and compliance.

**5. Additional Tasks:**

- Respond to inquiries, process invoices, conduct audits, and handle ad hoc projects.

---

スキル・資格

**Required Skills & Experience:**

- Expertise in quality management systems (ISO13485) and the Pharmaceuticals and Medical Devices Act.
