### 募集要項

#### About

Join a fast-growing tech startup whose mission is to address today's most significant operationally pressing issues through creating technologies that eliminate the need for manual labor and keeping up with the changing user expectations.

We're looking for an **Electrical/Mechatronic Engineer** to take ownership of hardware development for our next-generation automotive solutions. If you enjoy being at the intersection of design, testing, and real-world deployment, this is your chance to lead development across the full hardware lifecycle.

スキル・資格

**What We're Looking For**

- Electronic/Mechatronics experience
- Experience with hardware development for automotive or mechatronic systems
- Hands-on skills with PCB design, component selection, and electrical analysis
- Understanding of industrial standards and safety regulations
- SolidWorks and CAD experience
- Comfortable in an international environment

**Benefits**

- Social Insurance
- Paid holidays
- Transportation
