## 募集要項

Procurement Manager will build strong partnerships with local teams, offering procurement expertise based on category strategy, market insight, and supplier innovation. Supports the business with cost-effective solutions while ensuring compliance with local regulations and procurement KPIs.

## Client Details

Located in the heart of Tokyo, the organization is a global leader at the forefront of health technology innovation, transforming how patient care is delivered through cutting-edge solutions that span diagnostics, connected care, and patient monitoring.

## Description

- Manage €30M annual spend across 40 suppliers.
- Act as local procurement lead with a focus on diversity and compliance.
- Collaborate with internal stakeholders (e.g., business, legal, quality).
- Implement procurement strategies and drive standardization.
- Ensure regulatory and policy compliance.
- Lead process improvements and cost-saving initiatives.
- Support supply continuity and vendor performance management.

#### Job Offer

- A competitive salary package.
- A chance to work in a strategic position in a large organization.
- An opportunity to make significant contributions to the Life Science industry.
- A supportive and professional work environment in central Tokyo.
- A permanent role with room for personal and professional growth.
- Hybrid working style with 2 days work from home allowance and flex time.

We encourage all candidates who believe they can significantly contribute to our company to apply. This is an exciting opportunity to be part of a team making a real impact in the Life Science industry.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Maria Kosareva.

---

#### スキル・資格

A successful candidate should have:

- Over 5 years of experience in procurement, supply chain, or project coordination in a global, cross-functional setting.
- Familiarity with tech-related products and services, including installation and maintenance, with a solid understanding of compliance matters.
- Fluent in both Japanese and English (TOEIC 750+ or equivalent).
- Strong stakeholder management skills across commercial, market, and quality functions.
- Customer-oriented mindset with a firm commitment to regulatory adherence.
- Able to challenge established ways of working and drive change constructively.

\* Candidate must be based in Japan and/or have valid working visa
