募集要項

Our client, a Japanese company in paper chemical industry, is looking for Technical Engineer with details as follows:

Key Responsibilities:

· Laboratory Testing:

- Conduct a variety of paper tests
- Prepare test samples and ensure proper sample handling and storage.
- Analyze test data, interpret results, and generate comprehensive reports.
- Maintain accurate and detailed laboratory records.

· Troubleshoot and resolve any issues encountered during testing.

• Equipment Installation and Maintenance:

- Provide technical support for the installation and commissioning of paper-related equipment (e.g., printing presses, coating machines, paper converting machines).
- Conduct routine maintenance and inspections of equipment.
- Troubleshoot and diagnose equipment malfunctions.
- Perform necessary repairs and adjustments.
- Provide technical guidance to operators and maintenance personnel.
- Assist in the development and implementation of preventive maintenance programs.

• Technical Support:

- Provide technical advice and support to internal and external customers on paper-related issues.
- Investigate and resolve customer complaints related to paper quality and performance.
- Stay updated on industry best practices and new technologies related to paper manufacturing and processing.
- Contribute to process improvement initiatives.

Qualifications:

- Bachelor's Degree in Pulp and Paper Engineering, Chemical Engineering, or a related field.
- Experience in conducting paper testing and analyzing test data.
- Experience with paper-related equipment installation and maintenance (preferred).
- Proficiency in using laboratory equipment and software.
- Ability to work independently and as part of a team.
