募集要項

The Fleet Supervisor/Manager is responsible for overseeing the company's fleet operations to ensure efficiency, safety, and cost-effectiveness. This role involves managing vehicle maintenance, driver assignments, regulatory compliance, and fleet optimization to support smooth business operations.

Job Description:

- Oversee fleet operations to ensure efficiency, safety, and cost-effectiveness.
- Manage workshop operations, vehicle maintenance, and repairs.
- Plan vehicle acquisitions, leases, and disposals.
- Schedule driver assignments and monitor performance.
- Control maintenance costs and optimize routes.
- Ensure compliance with transportation regulations.

- Utilize fleet management software for tracking and analysis.
- Implement safety protocols and enforce standards.

Job Requirements:

- Bachelor's degree in Logistics, Transportation, or related field.
- Minimum 10 years of fleet management experience.
- Proficiency in fleet management systems and GPS tracking.
- Strong leadership, problem-solving, and cost-control skills.
- Excellent communication and organizational abilities.
- Valid driver's license and willingness to travel.
