#### 募集要項

Japanese Major Media is looking for Researcher.

Researcher/Reporter

Salary: 30-40K

Location: City, hybrid

#### JOB RESPONSIBILITIES

#### Research

- Conduct research on a wide range of current affairs topics
- Report findings to correspondents clearly and concisely
- Prepare brief and effective summaries of assigned topics

#### Press Conferences / Interviews

- Attend press conferences, take notes, and report findings to the editorial bureau
- Schedule appointments and prepare in advance for interviews
- Conduct short interviews, both in person and by phone
- Gather information and comments from a broad range of sources on specified topics

#### Deadlines

- Work under pressure and meet tight deadlines in a fast-paced newsroom
- Adapt to the demands of a 24-hour news cycle

#### Other Ad-hoc Duties

- Provide general administrative support to the newsroom as required

Some overtime may be required.

### REQUIREMENTS

#### Essential

- Native-level English proficiency and the ability to quickly analyse, process, and summarise information across a variety of genres
- A demonstrable interest in UK-related topics such as economics, business, or finance
- Strong attention to accuracy and detail
- Confidence in interacting with individuals at all levels
- Ability to present ideas clearly and efficiently
- A deep understanding of diversity and the interpersonal skills to engage effectively with people from a wide range of backgrounds

#### Preferred

- Knowledge of Japanese culture and/or language, along with an understanding of corporate culture in Japan and Asia
  - Experience working in the media or in a research-related role
  - Interest in European news, languages, and culture beyond the UK context
-
