募集要項

My client is seeking a talented Network Engineer to design, implement, and manage Fast Retailing's global network. You will ensure seamless, secure, and scalable connectivity across our offices, stores, and data centers worldwide.

Client Details

We are a global leader in apparel, transforming retail with technology and innovation. Our tech team drives this change by building scalable, secure, and modern infrastructure to support our rapid growth.

Description

- Design and maintain global network solutions (LAN, WAN, VPN, SD-WAN).
- Monitor network performance and ensure security and availability.
- Collaborate with IT teams and vendors on infrastructure projects.
- Manage firewalls, load balancers, and network security tools.

- Implement automation to enhance operational efficiency.

Job Offer

- Very competitive salary and you will be part of a **fast-growing, impactful team** leading digital transformation in retail.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Tomoji Miyashita on +813 6832 8652.

スキル・資格

- 3-5+ years in network engineering or related roles.
 - Experience with Cisco, Juniper, Fortinet, or similar technologies.
 - Strong knowledge of TCP/IP, BGP, OSPF, and VPNs.
 - Cloud networking (AWS, Azure, GCP) experience is a plus.
 - Familiarity with network automation (Python, Ansible).
-
