募集要項

As a mobile engineer, you will be working alongside a diverse group from some of the top Japanese and international tech

companies to contribute to their iOS and Android applications.

With over 20 million app downloads since release - join a team of talented engineers in directly impacting the lives of millions of active users.

Who you are:

- > Someone who wants to participate in growth and global expansion
- > A team player who enjoys to work with others to achieve satisfying and clear results
- > Someone who enjoys to learn new skills and acquire further knowledge
- > Someone who loves to travel!

Why you should apply:

- > Join an international work environment with open and like-minded people
- > You will gain preferential use of airline tickets in Japan
- > Join company trips to SE Asia, America, and more
- > Fantastic opportunities to grow and progress your career

スキル・資格**Requirements:**

- > 4+ years of combined experience with iOS and Android development
- > Experience developing with Kotlin/Java & Swift/Objective-C
- > Experience with Google Play Store and App Store releases
- > Experience communicating in English and Japanese
- > N3+ level Japanese *no certification needed

Preferred experience:

- > Experience with Android SDK
- > Experience with server-side development (PHP, JAVA, etc.)
- > Knowledge of AWS/GCP, etc.
