募集要項

*This position is available only for people residing in Japan

[Company Overview]

This is the Japanese subsidiary of a leading PDF technology company that boasts the second largest market share in the world thanks to its unique PDF engine.

The company mainly provides PDF readers, editing software, and file management software.

-Providing PDF editing software that provides functions such as viewing, creating, editing, splitting, merging, and converting between MS Office files.

-Providing cloud services that allow PDF management, security settings, and file collaboration.

-Providing server software that manages large volumes of PDF documents and captures data.

-Providing solutions that allow developed applications to use PDF technology.

[Job Description]

The main duties will be supporting partner companies, providing training on PDF software products, responding to inquiries, and communicating with domestic resellers. There will also be a lot of work with the US headquarters, and English meetings with the US will also be held.

This position will also include marketing and technical work for their PDF software.

[Recruitment Background]

Supporting partners and channel management as the business expands
