募集要項

Company and Job Overview

It's a leading research company focusing on electronics and semiconductor industries.

Responsibilities

Engage companies to understand their needs and promote technology transformations.

Matchmake companies with researchers to attract investments, products, and jobs.

Market research capabilities, facilitate licensing, collaborations, and technology commercialization.

Develop operational plans aligned with organizational strategies.

Translate technical insights into management decisions and drive process improvements.

Lead and motivate the team, fostering unity and long-term planning.

Take ownership and make informed decisions, including calculated risks.

Qualifications & Experience:

Master's or PhD in Electrical, Electronic, Materials, or Engineering Science (preferred).

10+ years industry experience; 3-5 in business development or strategic planning leadership.

Experience in Semiconductor fabrication, equipment development, or local enterprise growth is a plus.

Project management experience in R&D, technology, or operations.

Excellent communication skills and a proactive, decision-driven mindset.

Proven ability to influence decision-makers.
