募集要項

Company and Job Overview

This company is dedicated to researching and developing drugs for rare diseases. It aims to provide top-quality medications to improve patients' health and quality of life. As a leading entity in the orphan drug market, the company partners with major pharmaceutical wholesalers to ensure an efficient distribution network.

Job Responsibilities

- Quality Representation and Audit Preparation:
 - Support the company in all quality-related matters and prepare for audits by competent authorities (e.g., BfArM, UK MHRA) to ensure conformity.
- Document and Procedure Management:
 - Manage and update the company document system and management manual, and coordinate the definition

and distribution of company procedures.

- Quality System Audits and Evaluations:
 - Plan and supervise quality system audits, evaluate necessary corrective actions (CAPA), and assess audit results and non-conformities.
- Training and Technical Assistance:
 - Provide training on quality system issues and methodologies, offer technical expertise to other company functions and projects, and implement necessary training programs.

Job Requirements

- Capable of handling multiple tasks simultaneously.
Proficient in English at a business level (reading, writing, and speaking).
Experience in creating manuals and procedures is a plus.

Benefits

- Opportunities to gain diverse experiences.

Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
