募集要項

Company and job overview

Our client is an IT company.

Job Responsibilities
- Review source code and unit test item documents, conduct acceptance testing and confirm quality.
- Understand the content of specification/design documents created by Japanese designers and accurately translate them into Vietnamese.
- Effectively manage tasks received within the branch, and bridge business between the two countries.
- Listen to and organize consultations and issues from Vietnamese engineer members, and work towards resolution.
- Selection, interview, education, and evaluation of engineer candidates at the Vietnam branch.

Job Requirements
- B.S., M.S., or equivalent degree in Information Technology, Computer Science, Computer Engineering, or relevant major.
- Japanese language proficiency equivalent to JLPT N2 or JLPT N1 is required.
- Any Language coding.
- Extensive practical knowledge in the web/IT field.
- Experience building systems using AWS/Google Cloud.
