### 募集要項

Be part of a team of highly technical Voice Network Engineers which is distributed across Asia (Japan, Hong Kong and India) in a leading Global Investment Bank.

This on-site role offers the opportunity to provide support a global Voice infrastructure with technologies including; Trading telephony, Intercom, Standard telephony, and Voice recording.

#### Responsibilities:

- Support the global Voice infrastructure, including Incident, Problem, and Change Management as part of a global “follow the sun” group.
- Identify specific improvements within Network Services standards or processes and work collaboratively within the group to take action.

- Receive technical escalations and independently provide solutions to resolve high impacting network incidents.
- Conduct root-cause analysis for major problems and drive the troubleshooting to resolution;
- Communicate with business units (= End User Interactions) during projects and incidents (Severity 1 and 2 bridges).
- Oversight of the offshore provided L1/L2 support desks.
- Point of escalations for offshore Level 1 and Level 2 for incident management.
- Operational acceptance of new deployments and create technical documentation for as built environment. (Permit to Operate).
- Participate in Regional Support on-call duties in rotation.

#### About us...

EIRE Systems is a leading independent provider of professional IT services to the financial, insurance and multinational sectors in Japan and throughout the Asia-Pacific region. EIRE Systems has expertise across a wide spectrum of Information Technologies, with a track record for successfully completing hundreds of assignments since its establishment in 1996.

We provide professional IT services, both project-based and ongoing operational support, in two main areas:

1. IT Services
2. Project Management

EIRE Systems provides a wide range of career choices for internationally-minded technology and support professionals. From the company's small beginnings, EIRE Systems currently has 130 Tokyo-based employees and is expanding its local, regional and global expertise. We have established offices in Hong Kong, Singapore and Shanghai and are reaching further as we grow our presence throughout the Asia-Pacific.
