### 募集要項

#### Job Summary:

We are seeking a skilled and experienced Mold/Product Design Engineer to join our dynamic team. The ideal candidate will have a strong background in mold or product design, proficiency in 3D and 2D CAD software, and the ability to interpret technical drawings based on JIS standards. This role requires a detail-oriented individual with excellent technical knowledge and communication skills.

#### Key Responsibilities:

- Develop and optimize mold and product designs in line with project specifications.
- Utilize **3D CAD software** (CATIA, NX, CREO) and **2D CAD software** (AutoCAD) for design development.
- Review and interpret **technical drawings** based on **JIS standards** to ensure precision and compliance.
- Collaborate with cross-functional teams to implement design improvements.
- Conduct feasibility analysis, material selection, and manufacturing cost evaluations.

- Prepare and present design reports and documentation using **Microsoft Excel, Word, and PowerPoint**.

**Required Qualifications:**

- Diploma or Bachelor's degree in Engineering or related field.
- Minimum **3 years of experience** in **Mold design** or **Product design**.
- Proficiency in CAD tools (**CATIA, NX, CREO, AutoCAD**).
- Strong understanding of **JIS technical drawings**.
- Fluent in **English**, with **Japanese language skills preferred**.
