募集要項

- Lead the end-to-end AWS cloud migration and infrastructure modernization project

- Act as the primary project interface between business users, technical teams, and offshore developers

Client Details

Join a global IT services company with experience supporting banking and financial services. This organization is a trusted partner for digital transformation and innovation, delivering modern solutions in AI/ML, cloud computing, DevOps, and more.

Description

- Lead AWS/cloud migration and infrastructure standardization projects

- Manage full project lifecycle including planning, execution, quality control, and documentation

- Collaborate with stakeholders from both business and IT divisions

- Coordinate with offshore technical teams and vendors

- Provide project status reports, manage change requests, and ensure timely delivery

Job Offer

- Leadership role on a large-scale AWS migration

- Hybrid onsite-offshore work style with flexibility

- Work closely with a globally trusted financial services client

- Competitive compensation package

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Argia Pradana at +81 3 6832 8642.

スキル・資格

- IT project management experience

- Proven track record with AWS/cloud migration projects

- Solid understanding of SDLC and technical project coordination

- Comfortable working with local and offshore teams
