募集要項

Job description

You will be responsible for product legal affairs, working collaboratively with legal leadership and outside counsel.

Expected business example

- Research and summarize legal regulations and deploy them within the company, establish internal rules and standards, create and review trading contracts, review product specifications and manuals, manage internal documents,

- Plan and implement internal training, and lead litigation in cooperation with lawyers
 - Participate in meetings with internal and external parties and reach consensus.
-

スキル・資格

Required Skills

- Interpersonal skills (understanding different positions both inside and outside the company and building win-win and rational consensus)
- Empathy with the company's vision, understanding of business and products (judged based on level in previous job)
- Experience working in legal affairs for a manufacturer (3 years or more)

Welcome Skills

- English (TOEIC score of 750 or higher, experience of studying or residing in an English-speaking country for more than 6 months)
- Legal mind equivalent to graduating from a law school or graduate school, administrative scrivener qualification
- Experience and skills in carrying out US product liability litigation

Desired profile

- Someone with a sense of balance
 - Someone who can understand other companies and persistently assert and negotiate their own position
 - Someone who is not afraid to research and ask others
-
