### 募集要項

- Act as the primary point of contact between customer teams and offshore/remote development teams.
- Understand customer requirements, translate them into actionable tasks, and ensure technical feasibility.
- Prepare and deliver technical documentation, functional specifications, and meeting notes.
- Coordinate daily/weekly sync-up meetings, track action items, and follow up on dependencies.
- Ensure smooth communication flow and address any technical or process gaps between teams.
- Review deliverables from the development team to ensure they meet quality and specification standards.
- Escalate issues in a timely manner and work collaboratively to resolve blockers.
- Maintain project timelines, track progress, and support delivery management.
- Build trusted, long-term relationships with customer stakeholders, acting as a strategic advisor and advocate for their needs.
- Coordinate with internal teams (sales, delivery & support functions) to deliver tailored solutions and ensure seamless client experiences.
- Understand and adapt to Japanese business etiquette, communication style, and decision-making processes.
- Protects organization's value by keeping information confidential.

---
