## 募集要項

We are looking for a Project Manager to lead IT development projects for financial clients, with responsibilities across planning, execution, stakeholder communication, and documentation.

The ideal candidate has strong project management skills, experience with SDLC, and fluent Japanese communication abilities.

## Client Details

Leading multinational global IT services provider spearheading innovative digital transformation projects for major financial institutions.

## Description

- Plan and manage end-to-end project execution (small to large scale)
- Track progress, manage schedules, quality, and budgets
- Coordinate with clients, vendors, business users, and development teams
- Prepare and present project documentation and status reports

- Ensure customer approvals and engagement at all project stages
- Align project efforts with client business strategy

### Job Offer

- Competitive salaries
- 3 days a week WFH
- Cutting edge technology
- Multinational work environment
- Flat work environment
