募集要項

1.) About the company

A Global Online Travel & Tourism company is seeking to expand its international team in Tokyo. They offer a travel booking platform that allows users to search and book economical flights, accommodations and reserve taxis.

Established over 20 years ago, their application has over 20 million downloads which led to their expansion opening 6 international subsidiaries world-wide. In 2023, they reached their highest profit margins - leading to 3 new services being released.

2.) Who Are you

You are an experienced Cloud Engineer.

You are a self-motivated individual that enjoys working in a team.

You are interested in the tourism industry, and how it can help the Japanese society.

You like to follow and verify the latest theories and case studies.

3.) Why you should apply

Experienced leadership - from Amazon, Accenture, Salesforce

Global Environment - Over 50% of the company are international employees.

Engage in challenging projects that play a crucial role in the success of the organization.

Hybrid Workstyle

スキル・資格

4.) Requirements

3+ years experience with GCP OR AWS using Terraform.

1+ years of production experience with Kubernetes.

Solid understanding of DevSecOps principles and practical experience applying automation.

5.) Nice to have

Familiarity with CI/CD tools like ArgoCD.

Exposure to monitoring and observability tools.

Experience with penetration testing, vulnerability assessments, or security auditing and PCIDSS.

Familiarity with infrastructure reliability and scalability.
