募集要項

Seeking a well experience UI/UX Designer to lead the end-to-end design of an enterprise B2B analytics platform, creating intuitive, multilingual experiences for diverse users. Take charge of design strategy, user research, and cross-functional collaboration to shape the next generation of a powerful data-driven product.

Client Details

A leading global tech group with a strong presence in e-commerce, fintech, and digital services, known for leveraging rich data to drive innovation. They are expanding a cutting-edge analytics platform that empowers businesses with actionable insights through intuitive, user-focused solutions.

Description

- **Own the end-to-end design process** - from concept to high-fidelity prototyping, creating intuitive, workspace-oriented UX for a powerful analytics platform.

- **Set and lead the design vision** - define strategy, roadmap, and KPIs to drive impactful, user-centered innovation.

- **Collaborate cross-functionally** - partner with Product, Engineering, Compliance, and Marketing to shape a seamless and scalable experience.

- **Champion the user** - design for both beginners and experts, ensuring accessibility, usability, and value across all touchpoints.

- **Lead research & mentorship** - conduct user research and mentor a junior designer to foster continuous learning and design excellence.

Job Offer

- Career growing environment
- No Japanese needed
- Working time 9:00 to 17:30
