募集要項

Application Security for a leading life insurance company based in Tokyo. You will play a critical role performing technical security assessments and translate the threat landscape into concrete improvement plans and recommendations. Unique as you can work in both red and blue team.

Client Details

Global Insurance Company. The company offers insurance products and services. The Company underwrites and sells life and health insurance, including medical care, illness, death, and group health insurance. A company active in 20 countries.

Description

As part of the Cyber Security team you will contribute to its effectiveness. Performing technical security assessments and translate the threat landscape into concrete improvement plans and recommendations. You will be able to automate various security processes by scripting, using various automation tools and building new security systems. Occasionally, you will be involved as a security advisor in projects and awareness activities.

- Drive secure app delivery across the full SDLC
- Lead security projects aligned with the global Cyber Resilience roadmap
- Integrate SAST/DAST tools into CI/CD pipelines
- Collaborate with Dev, Ops, and global IT security teams
- Define and maintain security standards and architecture
- Communicate risks & conduct internal security training

Ideal for engineers passionate about **AppSec**, **DevSecOps**, and working in a **global enterprise environment**.

Job Offer

Flexible time, remote work and work life balance (less than 15 hours OT a month)

Ability to work and expose to different areas of the organization

Global and diverse team with members from different nationalities.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Samantha Galeana on +813 6832 8971.

スキル・資格

MUST

- ✓ Experience in Cybersecurity (Red or Blue team experience welcome!)
- ✓ Business-level Japanese & fluent English (including conversation - not just reading/writing!)
- ✓ Open for conversational Japanese if you have experience in Application Security

*Positive attitude, responsive, persistent and able to prioritize tasks by oneself. Ability to proactively propose ideas to stakeholders.

Permission to work in Japan*

WANT (NOT A MUST)

Cloud security, app security, Splunk

会社説明

Your company offers insurance products and services. The Company underwrites and sells life and health insurance, including medical care, illness, death, and group health insurance. A company active in 20 countries.

One of the first insurance companies to enter the Japanese market. Unlike domestic insurance players, who primarily focus on individual life insurance. The company has been focusing on offering a range of corporate-owned life insurance products.
