募集要項

Job Description:

- Lead and develop the Innovation & Development (I&D) team, promoting a positive, innovative, and improvement-driven culture.
- Drive the creation and testing of new formulations that align with customer needs and business goals.
- Ensure compliance with all relevant regulations and safe operating practices within the I&D facility.
- Focus on developing Color Cosmetics, Skin Care, and Fragrance products.
- Improve NPD brief approval rates and streamline development processes.
- Guide the team to provide timely, accurate updates to the commercial team on formulation progress.
- Oversee the use of Product Vision tools and ensure data is regularly updated.

- Partner with Commercial teams to explore new business opportunities that grow revenue and brand reputation.
- Build a strong innovation pipeline aligned with the manufacturing strategy.
- Collaborate with I&D teams in China and Thailand to share formulas and support cross-regional strategies.

Requirements:

- Bachelor's Degree in Chemistry/ Chemical Engineering
- Has 6-8 years of working experience in total within the same role
