募集要項

We are looking for a highly experienced and independent C# Developer who can handle the full software development lifecycle. You will be expected to design, build, test, and deploy robust applications with minimal supervision in an enterprise setting.

Client Details

Our client is a well-established enterprise operating a complex digital platform used across multiple departments. The technology team is expanding to support several internal initiatives and is seeking a reliable expert to lead key development efforts.

Description

- Participate in and lead the full software development lifecycle: design, development, testing, deployment, and maintenance
- Architect and implement scalable backend systems using C# and .NET Core

- Work closely with stakeholders to gather technical and business requirements
- Write clean, maintainable, and well-documented code
- Conduct code reviews and mentor junior developers if applicable

Job Offer

- Long-term renewable haken contract
- Opportunity for high autonomy and leadership in technical execution
- Competitive monthly salary based on experience
- Modern tech stack and enterprise-level projects
- Work hours: 9:00~17:30 Monday to Friday

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Hikari Takamura on +813 6832 8903.

スキル・資格

- Around5+ years of professional experience in C# and .NET ecosystem
- Proven ability to manage full SDLC projects independently
- Strong understanding of object-oriented design, architectural patterns, and modern development practices
- Experience with RESTful APIs, relational databases (e.g., SQL Server), and unit testing
- Ability to thrive in a fast-paced environment with minimal supervision
