募集要項

POSITION SUMMARY

A Japanese IT company is seeking a Sr. SOC Analyst to join their team! This position involves providing advanced-level security monitoring services to client companies by gathering security events from security devices, network devices, and computers within customer networks to a security monitoring system in a data center. This senior role also includes developing SIEM content and tools to enhance SOC capabilities.

RESPONSIBILITIES

- * Provide 24x7 monitoring and analysis of SIEM events to identify potential security risks and vulnerabilities.
- * Coordinate investigations, remediation, and preventative measures for cybersecurity events and incidents.
- * Manage escalations from Tier I SOC Analysts and investigate security incidents.

- * Develop and enhance SIEM contents and programs to improve SOC efficiency and detection capability.
- * Serve as a subject matter expert in at least one security-related area.
- * Provide technical support for SOC services and security products.
- * Coach, train, and support Tier I SOC Analysts.
- * Manage stakeholder relationships and provide routine reporting to customers.

QUALIFICATIONS

- * Bachelor's degree in a relevant field (Cybersecurity, Information Systems, Computer Science, etc.), with a Master's degree preferred.
- * At least 4 years of experience as a SOC analyst, incident response experience, etc.
- * Experience in managing and tuning SIEM products
- * Experience installing network security devices (FW, IDS/IPS, etc.) and servers (Linux/Windows, etc.)
- * At least 5 years of IT experience preferred.

BASE SALARY USD100,000-150,000 (DOE)

LOCATION Irvine, CA

WORK STYLE Hybrid

WORK HOURS Minimum of 8 hours per day. Work is shift-based and rotated
