### 募集要項

Position: Service Engineer

Company Profile:

This company is famous for robots, mechatronics and so on.

Job Description:

We are seeking a skilled and motivated Robotics Service Engineer to join our team. The successful candidate will be responsible for the maintenance and repair of robotic systems. This role requires a strong technical background, excellent problem-solving skills, and the ability to work independently.

Key Responsibilities:

- Install and configure robotic systems at client sites.
- Perform routine maintenance and troubleshooting of robotic equipment.
- Diagnose and repair mechanical, electrical, and software issues.
- Provide technical support and training to clients.
- Collaborate with the engineering team to improve system performance.
- Document service activities and maintain accurate records.

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
