募集要項

Our client is an established company that specializes in the development and manufacturing of imaging equipment. They work towards digitizing the vast amount of analog information in our daily lives by developing and providing devices that embody digital information in the analog world, seamlessly bringing together humans and digital space. Join them to be part of a fast growing team of talents!

Job Descriptions

- Plan and improve overall operations management by executing actions to meet preset objectives.
- Implement and enforce quality improvement activity.
- Responsible for the control of expenditure, overtime, departmental hiring, documentation, and manpower planning.
- Ensure and promote 5S practices, 3R activities, waste reduction, and safety & health compliance.
- Identify training needs and select staff for internal or external training.

Job Requirements

- Bachelor's degree in a related field (e.g., Engineering, Business Management, Operations Management).
- Min 5-7 years of experience in a production or manufacturing environment.
- Ability to lead and develop a production team, oversee production schedules, ensure quality control, and manage budgets.
- Strong leadership, communication, problem-solving, and project management skills
