募集要項

Company and Job Overview

Our client is a manufacturer and seller of plastics processing equipment and systems. In line with their business expansion, they are seeking a Service Engineer to handle for the maintenance, inspection, and repair of plastic molding facilities and industrial equipment.

Job Responsibilities

- Product installation and commissioning support
- Maintenance, inspection, and repair support (periodic inspections, response to malfunctions, etc.)
- Response to technical inquiries and advice
- Building relationships of trust through communication with customers

- Feedback sharing through collaboration with internal technical departments

Job Requirements

- Bachelor's degree in Mechanical, Electrical, or a related engineering field
- Minimum of 3 years of experience in a service engineering or technical support role
- Preferable experienced in servicing the plastics molding equipment or industrial machinery or chemical and plastics processing industries
- Strong understanding of equipment maintenance and troubleshooting
- Excellent communication and customer service skills
- Ability to work independently and as part of a team
- Full-Time position(s) available

Interested applicants, feel free to click APPLY NOW.
