### 募集要項

**About the Role:**
We are seeking a highly skilled **Manager – Design & Development** to lead innovative product design and development initiatives, ensuring technological advancements, process efficiency, and adherence to APQP guidelines. The ideal candidate will have hands-on experience in wiring harness development and a strong understanding of product lifecycle management.

**Key Responsibilities:**
- Drive technological improvements to enhance development efficiency and minimize iterations.
- Define and arrange specifications for **Unique/New Product Development (NPD) components**.
- Lead project activities in alignment with **APQP timing plans**, ensuring timely execution.
- Prepare and deliver technical presentations to stakeholders.
- Ensure proper documentation and maintenance of drawings, reference samples, and development products.
- Oversee prototype sample creation when required.
- Recommend technical specifications for new and existing products.
- Facilitate concept meetings with the **APQP team**, communicating customer requirements effectively.
- Finalize and manage the **Development Schedule/APQP timing plan**.
- Conduct **daily departmental meetings** to track progress and address concerns.
- Validate technical queries and implement effective solutions.
- Lead cost reduction proposals through **Value Analysis/Value Engineering (VA/VE) reviews**.

- Oversee **Engineering Change Notice (ECN) implementation activities** .
- Engage with customers for development activities, including trial attendance.
- Collaborate with cross-functional teams (CFT) to ensure seamless project development within APQP timelines.

**Required Skills & Qualifications:**
- Bachelor's or Master's degree in **Engineering, Design, or a related field** .
- Proven experience in **wiring harness development** and APQP processes.
- Strong proficiency in **design software and product development tools**.
- Excellent **problem-solving, project management, and leadership abilities** .
- Ability to coordinate effectively with cross-functional teams and stakeholders.

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
