募集要項

Job Summary:

We are seeking a skilled and experienced Mold/Product Design Engineer to join our dynamic team. The ideal candidate will have a strong background in mold or product design, proficiency in 3D and 2D CAD software, and the ability to interpret technical drawings based on JIS standards. This role requires a detail-oriented individual with excellent technical knowledge and communication skills.

Key Responsibilities:

- Develop and optimize mold and product designs in line with project specifications.
- Utilize **3D CAD software** (CATIA, NX, CREO) and **2D CAD software** (AutoCAD) for design development.
- Review and interpret **technical drawings** based on **JIS standards** to ensure precision and compliance.
- Collaborate with cross-functional teams to implement design improvements.
- Conduct feasibility analysis, material selection, and manufacturing cost evaluations.

- Prepare and present design reports and documentation using **Microsoft Excel, Word, and PowerPoint**.

Required Qualifications:

- Diploma or Bachelor's degree in Engineering or related field.
- Minimum **3 years of experience** in **Mold design** or **Product design**.
- Proficiency in CAD tools (**CATIA, NX, CREO, AutoCAD**).
- Strong understanding of **JIS technical drawings**.
- Fluent in **English**, with **Japanese language skills preferred**.

Notice: By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
