募集要項

Company Overview

Our client is a leading mining and resources company with a strong presence across the globe. Specializing in the exploration, development, and operation of precious metals and other mineral projects. They are committed to sustainable growth and responsible mining practices. As they continue to expand their operations, they are now seeking a talented Superintendent Civil Engineer to join their team and play a key role in their ongoing success and future projects.

Key Responsibilities

- Develop detailed designs and plans for bridge construction projects, ensuring compliance with engineering standards and regulations.
- Oversee all phases of bridge construction projects from planning to completion, ensuring timely delivery and budget adherence.
- Conduct site visits to monitor progress, inspect work quality, and enforce safety standards.

- Collaborate with architects, contractors, and other engineers for seamless project execution.
- Prepare, manage, and track project budgets, identifying cost-effective solutions.
- Provide technical guidance and troubleshooting support to construction teams.
- Implement quality control measures to ensure the durability and safety of bridge structures.
- Integrate ESG (Environmental, Social, and Governance) principles into project planning and execution.
- Ensure compliance with local and international regulations regarding safety, building codes, and environmental standards.
- Foster team coordination and cross-functional collaboration to promote efficient project execution and continuous improvement.

Key Requirements

- At least 8 years of experience in civil and infrastructure projects, specializing in bridges, roads, and tunnels.
- Familiarity with construction standards in Australia, the US, and China.
- Fluency in verbal Mandarin to effectively communicate and collaborate with Mandarin-speaking clients and contractors.
- Excellent project planning and report-writing skills.
- Prior experience leading a construction team on-site, providing technical guidance and ensuring project safety and quality standards are met.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
