## 募集要項

Our client is an IT solution provider with end-to-end support from project management to implementation to post-go-live support.

**Location:** Bangkok.

### Responsibilities:

- Operational assistance for project engineers working on IT infrastructure.
- Assist the sales team in presenting a BOM and a proposal to the customer for system integration and solution.
- Following up, collaborating with the product seller and partner.
- Capable of growing in project management and service delivery.
- Capable of working on-site at the client's location. (If any, upcountry or in Bangkok.)

**Qualifications:**

- Bachelor's degree in IT, Computer Science, or related fields.
- Proven expertise as a Full Stack Programmer or Developer with at least two years of work experience and familiarity with HTML, CSS, JavaScript, and low code platforms.
- Understanding of database administration (SQL Server, MySQL).
- Familiarity in creating mobile and/or web applications.
- Knowledge of integrating software via web services and APIs.
- Outstanding teamwork and communication abilities.
- Excellent attention to detail, critical thinking, and organizational abilities.
- Strong communication skills in English
- Have experience in ERP, production, and warehouse management systems (It would be advantageous).

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
