### COMPANY OVERVIEW

One of the most reputable consulting firms from Japan, is now expanding its business in Vietnam for both Japanese and Vietnamese clients

### JOB RESPONSIBILITIES

- Act as a Delivery member of IT consulting services for Japanese companies in Vietnam and Vietnam companies.
- By gaining skills in business reform, IT implementation planning, and Digital Transformation you will have more options in the future to work as a senior consultant, or to work as a Business/IT Architect in IT department or a Data Scientist of a business company
- Collect information about the client's business through a variety of methods (shadowing, interviews, surveys, reading reports etc.).
- Analyze and interpret facts to identify weaknesses and problems, and comprehend the causes.
- Understand critical issues of the client's operations and its IT systems, and create a counterproposal for the client to improve its management and operation.
- Deliver and Work as a project member and create key deliverables (e.g.

Assessment documents, Business Process Flow, Business Requirement Definition, Fit & Gap analysis with a certain application function).

- Propose appropriate measures to fill gaps using IT or non-IT solution.
- Negotiate and facilitate key discussions in both Vietnamese and English.
- Work closely with project managers to deliver appropriate consulting services for our clients.
- Support presales and creating a proposal for consulting projects.
- Support managers for recruiting new employees, finding alliance partners in Vietnam, and reporting to the Headquarter.

## JOB REQUIREMENTS

### MUST:

- **Minimum 5 years of working experience**, especially consulting experience working for a consulting firm or similar work experience in private company
- Have any experience or skills in any of the following IT consulting services :
  - o IT Grand design for core system replacement of Finance and manufacturing dept.
  - o IT assessment and diagnosis of legacy core system, and create RFP of core system replacement.
  - o PMO (Project Management Office) support for each IT project
  - o Digital Transformation (e.g. Smart Factory, Digital Marketing, Social Listening)
  - o Data Management (MDM, DMP, CDP)
  - o IT planning, IT investment process planning and execution support
  - o Support strategy for planning migration to infrastructure, Data Center, and cloud
  - o Robotic Process Automation
- Experience in designing business processes and system requirements.
- Experience in project management of a consulting project or PMO experience.
- High competency skills (logical thinking, negotiation, team leadership).
- High documentation and presentation skills using MS PowerPoint documents and MS Excel.
- Language skills: English (business proficiency level), Vietnamese (native level).
- Strong motivation to build up a career in the business consulting field.
- Outstanding communication skills, especially interviewing clients, facilitating meetings, coordinating clients with other stakeholders.
- Work experience in one or more consulting projects as a project manager or a project member.
- Skills to build key consulting deliverables (Assessment/Business Process Design/Business Requirement).
- Self-motivated to become a leading consultant in the market and an ability to work and motivate others to start-up business consulting practice.

### PREFER:

- Experience in SCM/SCP related IT solution implementation (SAP SD/MM, other ERP, SAP APO, JDA, etc.).
- Experience in sales management IT solution implementation (Salesforce, MS Dynamics CRM, ZOHO CRM, Sugar CRM, etc.).
- Experience in logistics IT solution implementation (Infor WMS, Manhattan, SAP WM, etc.).

### BENEFITS

- Salary: Negotiable depending on Candidate's year experience
