### 募集要項

#### Responsibilities:

- Coordinating project activities and driving progress with both internal departments and the Global team.
- Conducting thorough system testing to ensure flawless functionality before go-live.
- Training end-users to efficiently utilize the new SAP system.
- Providing comprehensive user support during the go-live phase and post-implementation to resolve issues promptly.
- Documenting all processes and changes clearly for future reference.
- Verifying and managing data accuracy and completeness prior to migration into the new system.

## Qualifications:

- Bachelor's degree in computer science, Information Systems, Business Administration, or related.
- Minimum of 3-4 years of hands-on experience in SAP S/4HANA ERP implementation projects (SD/MM/PP modules).
- Strong understanding of Production and Supply Chain processes.
- Proficient in system analysis, master data management, and project management.
- Excellent communication and interpersonal skills, with the ability to collaborate effectively within a team environment.
- Skilled in using SQL, Microsoft Office 365, Project management software, and PMO tools.
- Experience in the automotive manufacturing industry will be a significant plus.
