募集要項

Responsibilities:

- Lead the development and optimization of new and existing home care product formulations, including but not limited to detergents, cleaners, disinfectants, and air fresheners.
- Conduct benchtop formulation, stability testing, and performance evaluations to ensure product efficacy and safety.
- Source and evaluate raw materials, ensuring quality, cost-effectiveness, and compliance with regulatory requirements.
- Develop and maintain detailed formulation records and technical documentation.
- Conduct market research and competitive analysis to identify emerging trends and consumer needs in the home care sector.
- Ensure all formulations and products comply with relevant local and international regulations (e.g., BPOM, ASEAN Cosmetic Directive).

Requirements:

- Bachelor's or Master's degree in Chemistry, Chemical Engineering, Apothecary, and other relevant studies.
- Minimum of 3-5 years of experience in formulation development, preferable for home care products.
- Past experiences as R&D or Formulator are much preferred.
- Strong knowledge of formulation chemistry, raw materials, and processing technologies for home care products.
- Proficiency in conducting stability testing, performance evaluations, and analytical techniques.
- Familiarity with regulatory requirements for home care products.
- Fluent communication in English, both spoken and written.
