募集要項

- Job Description
- Receive explanations of the standard functions of the new system from vendors, etc., and accurately understand the functional details
- Compare the standard functions with current operations and analyze Fit/gap
- Identify and confirm issues related to gaps, and conduct interviews with relevant stakeholders
- Identify issues and inefficiencies in current business processes, and implement improvement proposals based on best practices from other companies in the industry
- Document the results of the Fit & Gap analysis and report to stakeholders
- Provide input support for the requirements definition phase
- Knowledge of technical and on-site operational processes, as well as industry regulatory requirements, necessary for aviation MRO operations

- Knowledge of core MRO operations (technical management, production management, inventory management, purchasing management, and on-site operations)
- Experience in business analysis or requirements definition for IT system implementation or business reform
- Experience in negotiation and coordination with vendors and business departments
- Ability to understand standard functions and compare them with business processes
- Technical and on-site practical experience in aviation engine MRO operations
- Experience in implementing ERP packages (SAP, Oracle, IFS, Solumina, etc.)
- Practical experience in Fit & Gap Analysis
- Experience in business improvement or BPR across multiple industries
- Skills in proposing business process improvements based on industry standards and best practices
