募集要項

Position   System Engineer

Salary: 35,000 – 50,000 THB

Report to: Amata city, Rayong

Key Responsibilities

- Develop, maintain, and enhance applications primarily using VB.Net.

- Program, test, document, and provide user training for various systems.

- Provide day-to-day maintenance and support for all existing applications.

- Optimize and enhance reporting technologies to improve performance and scalability for user demands.

- Contribute to development efforts as needed to ensure smooth daily operations without interruption.

- Improve business operations through digitalization of platforms and enhancement of data accuracy.

- Write, optimize, and manage SQL queries and stored procedures.

- Design and develop Robotic Process Automation (RPA) solutions using Microsoft Power Automate.

- Document processes, workflows, and technical implementations thoroughly.

Qualifications & Experience

- Bachelor's degree in Computer Engineering, Computer Science, or a related field.

- 3-5 years of professional experience in software development.

- Proficiency in VB.Net and Python programming languages.

- Familiarity with API integration, particularly with AI services, is an advantage.

- Good command of English communication skills (both written and spoken).

- Willingness to work at Amata City Industrial Estate, Chonburi.
