募集要項

Key Responsibilities:

- System Development & Enhancement: developing new software solutions and continuously improving existing systems to optimize performance and meet evolving business needs.
- System Maintenance & Operations: Oversee the smooth and stable operation, maintenance, and monitoring of all assigned IT systems.
- Process Management: manage all aspects related to system development, maintenance, and operational processes.
- Project & Team Leadership: Take charge of managing tasks, project progress, issues, and personnel within the DX Promotion Team and various system development projects.
- Organizational Initiatives: Drive and manage internal common business initiatives, ensuring adherence to standards such as ISO, SOX, and KAIZEN.

Qualifications:

- Bachelor's degree in a related field.
- Minimum of 5 years of experience in system development or system maintenance and operations.
- Open to all development languages and platforms; however, the candidate must be willing and able to learn and become proficient in the technologies currently used by RMT.
- Experience with the following tools and platforms is highly advantageous:

- Python
- PowerApps / Power BI
- RPA (UI Path)
- Microsoft 365 (MS365)

- Able to communication skills in English (speaking, reading, writing).

Notice: By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
