Company and Job Overview

A global tech firm specializing in digital transformation and software development, with a strong international presence and collaborative culture.

Job Responsibilities

- Lead and manage software development projects involving Japanese clients.
- Coordinate cross-functional teams to ensure smooth project execution and timely delivery.
- Maintain clear and effective communication with stakeholders, including Japanese-speaking counterparts.
- Monitor project progress, manage risks, and resolve issues as they arise.
- Occasionally travel to Japan for client engagement and project alignment.
- Apply Agile practices to drive team productivity and project success.

- Minimum 5 years of experience in project management within software development.
- Proficient in Japanese (N2 level or higher).
- Familiarity with Agile methodologies is essential.
- Strong interpersonal and organizational skills.
- Ability to work in a multicultural environment and manage diverse teams.
- PMP certification is an advantage.
- Good command of English is preferred.
- Interest in learning about the energy sector is a plus.

Benefit

- Competitive salary with performance-based bonuses.
- Comprehensive benefits package including health care and annual check-ups.
- Annual performance reviews and career development support.
- Engaging work environment with modern facilities and international collaboration.
- Company-sponsored activities and wellness programs.

Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
