募集要項

This position will be responsible for handling supplier discussions and formalizing agreements within specific purchasing areas. By taking on these operational tasks, the role enables category teams to concentrate on high-level strategic initiatives. All procurement activities will be conducted in alignment with the overarching plans established for each category.

Client Details

A global leader in the fast-moving consumer goods (FMCG) industry, the company operates across multiple product portfolios, spanning both food and non-food categories. With a strong presence in Japan, it employs approximately 200 people locally, contributing to its dynamic and diverse business operations.

Description

Key Responsibilities:

- Manage sourcing activities across defined categories and spend thresholds
- Lead supplier negotiations and resolve operational issues
- Ensure supplier performance, risk mitigation, and contract compliance

- Collaborate with stakeholders to understand needs and support procurement decisions
- Contribute to process improvements and optimize buying channels

Stakeholder Collaboration:

- Work with internal teams to shape requirements for inclusion in scopes of work.

Continuous Improvement:

- Share supplier insights and trends with category teams.
- Partner with sourcing and content teams to refine purchasing channels.

Job Offer

- Competitive salary up to ¥9.9 million annually - Reflects the value placed on your expertise and contributions
- Supportive and inclusive company culture - A collaborative environment where people feel empowered and respected
- Flexible work style with over 50% remote work allowance - Promotes work-life balance and autonomy
- Direct reporting line to the APAC regional team - Offers visibility, regional exposure, and opportunities for growth
