### 募集要項

Our client is a 100% Japanese owned company and a leader in Software Programming & IT Solution. Our mission is to provide our clients high-valued technological solutions and services that will help them to fulfill their business needs. We provide our technology expertise to find the best solution in the market to meet your business needs, following best practices in software development and a transparent process with frequent deliveries and review. Our solution package development team is always on the edge of technology, following global standard development and security processes, developing the most advanced and competitive products.

We also provide best in class E-Commerce solutions based on our extensive development track record by our professional staff specializing in E-Commerce systems, membership websites, reservation systems and smart phone app development.

#### ❖ Job responsibilities:

- Directly communicate with Japanese clients via email, chat tool, meeting to meet requirements.
- Analyze requirement & create/review design documents (Basic Design, Detail Design)
- Review source code, test case, test script
- Deploy & manage server configuration
- Lead small team (estimate, assign task, progress tracking, review output to assure quality, report)
- Manage project timeline, report to clients on regular basis and manage project performance.

#### ❖ Required Skills and Experience:

**Key Qualifications:**

- More than 3 years of experience in software development as BrSE role
- Experience in creating design documents (Basic Design, Detail Design)
- Good programming fundamental, critical and logical thinking skills
- Japanese communication: good at conversation & writing (JLPT N2 or above)
- Commitment to excellence and self-improvement
- Proactive in learning
- Experience in testing (manual or automatic) (Plus point)
- Review code & debug skill (Plus point)

**Nice to have**

- Good knowledge of JavaScript Framework such as Vue, Angular, React
- Good knowledge and experience with HTML/CSS, JavaScript
- AWS configuration

**Benefit:**

- Competitive Salary
- Global Product Development (based on modern technology)
- Comprehensive Training (Training before working directly with clients, training activities of Japanese, English & seminar about trend technologies)
- Environment with growth career path
- Have the opportunity of Onsite in Japan and Asia
- Flexible Working Hours (In (7:00 ~ 9:00) – Out (16:00 ~ 18:00))
- Health Care: 24/7 health care package
- 13-month salary & project bonus (according to the company policy)
- Company activities (Quater Birthday, Company Trip, YEP) & volunteer activities
- Special Benefits (additional Leave-off for Leaders & long-term working members)
- Active Union Activity (Union Trip, outdoor activity and special bonus (New Year, 30/4, 2/9...))

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
