募集要項

COMPANY OVERVIEW

Our client is a major Japanese civil engineering and construction firm, expertise in marine works and land reclamation, and actively engaged in large-scale infrastructure projects globally, including ports, airports, bridges, and urban developments.

JOB RESPONSIBILITIES

- Provides contractual advisory and support from the commercial perspective to the project through all stages: construction, subcontracting, completion and hand-over.
- Proactively engages in continuous improvement and review of existing processes, systems and policies that may support the project's contract management and administration.
- Identify, assess and manage / advise on contractual risk
- Manages contractual claims, disputes, settlements and resolution

- Possesses interpersonal skills to manage internal and external stakeholders, thinks strategically and critically, exercising judgement after consideration for all aspects.

JOB REQUIREMENTS

- Degree in the Built Environment or related fields.
- Must be conversant and have in-depth knowledge of PSSCOC.
- Minimum 8 years' relevant experience in Civil & Marine Construction.
- Must have worked in Singapore for at least 5 years.
- A high level of integrity, dependability with a strong sense of urgency and result oriented

Working Location: Singapore
