募集要項

We serve our customers around the world in two major business sectors:

- The Automotive and Industrial (A&I) equipment business, where we procure and sell critical components all over the world utilizing our comprehensive strength as a trading company.
- The Optical Communication (OC) components business, where we design, test and manufacture the world's leading optical interconnect products.

Job Title: QA Engineer

Business Type: Trading, Automotive parts

Location: Sathorn, Bangkok

Job Type: Full-time, Monday-Friday, 08:30-17:30 hrs.

Responsibilities:

- Develop and manage QA documentation to ensure compliance with standards.
- Perform quality inspections to verify the goods specifications.
- Work with sorting company quality issues and drive improvements.
- Follow up and respond to quality complain (NCR Report) from the customer and register in the NCR Log Sheet as NCR#YY-0XX.
- Follow up the investigation and improvement from the supplier such as 8D Report or 5Why Report then submit to the customer.
- Prepare and submit PPAP for both new part and part change to the customer according to the supplier's request.
- Collaborate with relevant departments to resolve concerns and identify the root cause, implementing effective countermeasures.

Qualifications:

- Education: Bachelor's degree in industrial engineering, or a related field.
- Experience: 1-5 years in QA/QC of automotive parts trading.
- Preferred: Background in Automotive
- Skills: Strong knowledge of quality assurance and communication, negotiable
- Language: Intermediate English communication (TOEIC 750+)

Benefits:

- Social Security
- Health Insurance
- Dental claim 6,000 THB/year
- Provident Fund
- Transportation allowance 2,500 THB/month
- Bonus 2 times/year, depends on performance
