募集要項

Job Title:	Senior Technical Support (Adhesive Resin)
Location:	Bangkok, Thailand
Job Type:	Full-time, Monday - Friday from 08:30 to 17:30

Responsibility:

1. Customer Technical Service

- Provide timely and effective technical assistance and troubleshooting support to customers.
- Promote products by delivering relevant technical data, presentations, and training.
- Establish and maintain strong, trust-based relationships with customers and other key stakeholders to facilitate

information gathering and business growth.

2. Development Management

- Collect and analyze market trends, customer requirements, and feedback to identify development opportunities.
- Translate collected insights into clear product development targets, including specifications, timelines, and performance expectations.
- Collaborate closely with Sales, R&D, and other internal functions to drive new product development and enhancements aligned with market needs.

3. Internal Technical Support

- Serve as a technical assistance to the Sales team, providing product knowledge, material performance data, and application insights.

4. Sales Activity Support

- Participate in joint customer visits, discussions, and presentations to support Sales from a technical perspective.
- Help strengthen long-term customer relationships through consistent technical engagement and follow-up.
- Prepare technical documentation, reports, and proposals to support business discussions and customer evaluations.

Skills:

- Polymer Processing: Extrusion, blown film, multilayer structures film
- Polymer Chemistry: polymer science, polyolefins
- Technical Documentation: Reports, test summaries, customer visit report
- Analytical Testing: Basic polymer characterization, mechanical testing, quality control
- Data Analysis & Presentation: Basic data handling and reporting

Attributes:

- Analytical & Logical Thinking: Strong problem-solving skills with a structured approach
- Customer-Focused: Clear communicator, able to explain technical info effectively
- Polymer Expertise: Solid knowledge of polymer chemistry and application-specific needs
- Proactive Support: Provides timely follow-up and issue resolution for customers
- Team-Oriented: Cooperative and supportive in cross-functional environments
- Project management: Manage resource input to get output along the desired timeline

Qualification:

- Minimum bachelor's degree in Chemical Engineering, Polymer/Plastic Engineering, or Material Science
- **Minimum 3–5 years** of experience in the chemical, polymer, or plastics industry.
- Hands-on experience in **technical service or R&D**, particularly with chemicals or plastic products.
- Must possess a **valid driving license, own a vehicle**, and be willing to travel to upcountry customer sites (Bangkok, Rayong, Chonburi).
- Fluent in English (spoken and written). Third-language proficiency is a plus.

Benefits:

- Annual Leave: Start 6 days/year
- Business Leave: 15 days/year

- Public Holidays: 17 days/year
- Medical allowance
- Annual medical check-up
- Group insurance
- Provident fund
- Car Allowance (9,000 THB with actual oil/gas)
- Company Mobile phone

How to Apply: If you meet the qualifications and are excited about this opportunity, please submit your resume and a cover letter by click "APPLY". We look forward to hearing from you!
