募集要項

About The Company

Ever wonder: “why does my 5 year old phone seem smarter than this 3M yen new car ?”

We are currently looking for a Senior Project Manager to champion and revolutionise the way people interact with their cars, addressing both the challenges facing our climate and our business needs.

- **Start-up culture**
- New ideas are embraced to challenge the impossible
- Wearing ties is TABOO
- YET with the backing of a Japanese auto giant

Who Are You?

- An experienced **Project Manager**
- A strong knowledge of **software development**
- Can collab with our new grads and pitch the CEO our next big move
- Passionate about how tech can make driving better

Why you should apply:

- You will be a part of a **diverse team** coming from over 20 different countries
- While developing **driving technology** that directly impacts millions' day to day life
- Making driving safer, smarter and more exciting

We have a fun, collaborative environment that encourages innovation and promotes ongoing learning to better our team.

スキル・資格

Requirements

- 3+ years of experience in end to end **Project Management** / **Consultant**
- **Software development** life cycle expertise
- **Native or fluent Japanese (N1 level)** together with business level English skills
- Degree in Business Administration, Economics, Engineering, or Computer Science
- Excellent communication skills / ability to collaborate with stakeholders across all levels

Bonus points if you have

- **Automotive experience**
- Extra qualifications (PMP, Prince2 , MBA , Doctorate)
- Have worked with cloud-based solutions (e.g. AWS , GCP)
- Served as a **Scrum Master**, ideally in large agile projects or scaled frameworks

Contact Kris at **kris.prazma@nextmove.co.jp** for more info!
