募集要項

We are looking for a driven and creative software engineer with a strong interest in embedded systems and cross-platform development. If you're excited by new technologies and enjoy building intuitive user experiences, this role is for you.

Responsibilities

- Design and develop user-friendly graphical interfaces for embedded devices and desktop platforms.
- Build and maintain software for analytical and laboratory instruments, ensuring long-term reliability and performance.
- Develop cross-platform applications for iOS, Android, macOS, and Windows environments.
- Integrate and manage hardware communication using protocols like SPI, I2C, UART, CAN, and USB.
- Collaborate with hardware, UI/UX, and QA teams to deliver high-quality products from concept to production.

Qualifications

- Degree in Computer Science, Electrical Engineering, Mechatronics, or a related technical discipline.
- Experience with C++, C# development.
- Familiarity with GUI frameworks such as Qt, TouchGFX, WPF, Xamarin, or MAUI.
- Knowledge of real-time operating systems (e.g. FreeRTOS, Zephyr) and hardware-level programming.
- Proficiency in version control (Git), CI/CD tools, and unit testing frameworks like Ceedling or Unity.

- **Ability to working onsite at Pathum Thani.**

Interested candidate, please submit your most recent resume in English by simply clicking "APPLY NOW'
