募集要項

Company overview

Our client is a software development company with 100% Japanese capital

Job Description

- Involved in all project phases from requirement definition to release.
- Manage Vietnam offshore development team and project progress.
- Interpret Japanese client specifications and support communication and QA.
- Review deliverables to ensure quality (designs, code, test specs/results).

Requirements

- Japanese proficiency equivalent to N2 level, capable of facilitating communication between clients and offshore development teams.
- At least 1 year of experience as a Bridge Systems Engineer (BrSE) for software projects with Japanese clients.
- Experience and understanding of software development phases (from requirements gathering onwards).
- 2+ years of development experience (Javascript/C#/PHP/Python, etc.)
