募集要項

Join a dynamic team driving infrastructure innovation across global payment and incentive platforms. As Project Manager, you'll oversee complex IT infrastructure projects from planning to execution, ensuring seamless integration and delivery.

Client Details

This department delivers advanced incentive and payment solutions that power a wide range of services across a global tech ecosystem. With a strong focus on cloud platforms and infrastructure scalability, the team plays a key role in enabling business growth and digital transformation.

Description

You will lead IT infrastructure projects with a focus on the Payment Gateway service, managing detailed project plans, budgets, and resources. Responsibilities include coordinating cross-functional teams, tracking milestones, identifying risks, and ensuring integration with existing systems. You'll use tools like JIRA and Confluence to manage tasks and documentation, while supporting the management team in reporting and process improvement initiatives. Office attendance

is required four times a week.

Job Offer

- Opportunity to shape infrastructure strategy in a global tech environment
- Collaborative culture with access to cutting-edge technologies

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Anna Fuji on +81366276095.

スキル・資格

- Minimum 3 years of project management experience, including 1+ year in IT infrastructure
- Solid understanding of IT infrastructure and public cloud (e.g., AWS)
- Skilled in JIRA, Confluence, and project tracking tools
- Business-level English proficiency
