募集要項

Key Responsibilities

- Analyze warranty-returned parts through visual, dimensional, and functional testing to identify failure modes and prepare detailed root cause reports.
- Collaborate with design, R&D, manufacturing, and supplier quality teams to implement corrective actions and support field quality teams in identifying recurring issues.
- Monitor warranty trends using analytical tools, ensure timely case closures, maintain investigation records, and contribute to product improvement and cost reduction through early issue detection.

Notice: By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
